

Certificate of Termite Protection

is hereby issued to:

The previous owner of your home purchased an annual termite protection plan from Arrow Exterminators and this protection plan was automatically transferred to you at the time of sale. Welcome to the Arrow family of customers!

Termites do more damage to homes each year than storms and fires combined – a staggering \$5 Billion and termite damage is rarely covered by homeowner's insurance. In the coming weeks you will be receiving a notice to renew this termite protection plan and schedule your complimentary annual whole-home evaluation. Should you have any questions about your existing termite coverage or upcoming renewal, please feel free to contact me directly.
